Experience

Mindex Technologies - Rochester, NY   January 2021 - Present

Partner Engineer

- Working directly with clients to architect and implement **full-stack, cloud-native** (Amazon Web Services - AWS)**, serverless software solutions.**
- Engage and coordinate cross-functionally with internal and external stakeholders to translate and define business objectives into technical requirements.
- Create and maintain both client-facing user guides and technical documentation (Cloud Architecture, APIs, database integrations, ETL systems).
- Leverage AWS Services to build **high-availability (HA), scalable, and secure** cloud-native applications in **Fintech, Healthcare, and eCommerce.**

Jorsek - Rochester, NY   November 2019 – January 2021

Customer Success Manager   October 2020 – January 2021

- Engage, manage, and support new and existing customer relationships.
- Identify, advocate, and translate business requirements into a product plan that aligns technical and business stakeholders.
- Support sales and pre-sales activities.
- Lead and manage the implementation process.

Software Developer   November 2019 – October 2020

- Built, tested, and implemented **custom responsive User Interface (UI)** designs for easyDITA, Jorsek's cloud-based, collaborative authoring platform or Component Content Management System (CCMS).
- Utilized component-based architecture and **Test Driven Development (TDD)** to build customized **React** component libraries.
- Helped launch static site generator (SSG) with custom **Gatsby** themes.

Mindex Technologies - Rochester, NY

Hybrid Engineer   July 2018 – November 2019

- Designed, developed, and tested Paychex's web-based Payroll and HR Applications.
- Used modern **JavaScript** frameworks (**Angular/AngularJS** and **Vue**) to build customized, reusable, and reactive web components.
- Created **test automation** suites using **testing frameworks** and tools (**Selenium**/SeleniumWebDriver, **Jasmine**, and **Karma**).

Direct Recruiters Inc. - Cleveland, OH

Lead Technical Recruiter   July 2015 – July 2018

- Led DRI's technical (IT) recruitment efforts. Was responsible for recruitment, client management, and new client development.
- Awarded Rookie of the Year, 2-time Winner's Circle recipient, and generated $849,000 in total billings.
